Meet Our Speakers

Professor Barry J. Sessle MDS, PhD

Barry is Professor and Canada Research Chair, Faculties of Dentistry and Medicine, University of Toronto. He is a Fellow of the Royal Society of Canada and Canadian Academy of Science, and Past President of the International Association for the Study of Pain, International Association for Dental Research, Canadian Pain Society, and Canadian Association for Dental Research. He is Editor in Chief of the Journal of Orofacial Pain.

Dr Noshir Mehta BDS MDS, DMD, MS

Dr. Mehta is the Associate Dean for International Relations, Professor and Chairman of the Department of General Dentistry as well as Director of the Craniofacial Pain Centre at Tufts University School of Dental Medicine. He has treated TMD patients for the past 30 years and heads a multidisciplinary team treating around 2500 patients with head, face and neck pain, and dental sleep disorders.

Dr Jamison Spencer President AACP

Associate Professor Ramesh Balasubramaniam

Ramesh graduated in 2000 with a BDSC from Western Australia. He gained his MSc in Orofacial pain at the University of Kentucky under Dr Okeson; his Dental Sleep Medicine training there under Prof Falace; and specialist training in Oral Sleep Medicine and interdisciplinary geriatrics under Prof Greenberg at the University of Pennsylvania. He is a diplomate of the ABOP, and is a Clinical Associate Professor at the School of Dentistry at the University of Western Australia, and the Director of the Perth Orofacial Pain and Dental Sleep Centre in Perth.

Professor Nikolai Bogduk

Nikolai is Professor of Pain Medicine at the University of Newcastle and Director of Clinical Research at the Newcastle Bone and Joint Institute. His research has addressed the anatomical basis of the diagnosis and treatment of spinal pain and headache. He and his students have conducted studies on the biomechanics of the cervical spine, the use of diagnostic blocks for the investigation of neck pain and cervicogenic headache, and the treatment of pain after whiplash.

Professor Peter Cistulli

Peter is Professor of Respiratory Medicine, and Head of the Discipline of Sleep Medicine, University of Sydney, head of the Centre for Sleep Health and Research at Royal North Shore Hospital, and head of the Upper Airway Structure and Function Group at the Woolcock Institute of Medical Research. He is the recipient of the Pierre Robin and Honorary Member awards from the American Academy of Dental Sleep Medicine and is a Past-President of the Australasian Sleep Association.

Dr Bill Johnston

Bill is an ENT surgeon based in Hornsby. He has been in private practice since 2000, and has a special interest in paediatric ENT and the treatment of chronic nasal and sinus issues in both adults and children.

Dr Ira Klemons DDS PhD

Dr. Ira Klemons is Director of The Center for Headaches, Facial Pain and Sleep Apnea in New Jersey. He obtained his D.D.S. degree at NYU, the first Ph.D. in craniofacial pain (at the Pennsylvania State University), and has exclusively treated craniofacial pain for 35 years. He is President of the American Board of Craniofacial Pain and The New Jersey Society of Interventional Pain Physicians, and is Past Chairman of the American Board of Radiofrequency Surgery. Numerous patients travel to his office from around the world.

Professor Matthew Naughton MD FRACP.

Matthew is a past president of the Australasian Sleep Association. He is head of the general respiratory and sleep medicine service, Department of Allergy, Immunology and Respiratory Medicine at the Alfred Hospital and Monash University. He has a clinical research interest in cardiopulmonary interaction in relation to heart disease and positive airway pressure.

Dr Peter Selvaratnam

Dr Peter Selvaratnam is a Doctor of Anatomy, and a Specialist musculoskeletal physiotherapist. Peter is Director of the Melbourne Spinal and Sports Physiotherapy Clinic and the Headache Centre of Victoria. He is a Clinical Associate Professor at the University of Melbourne and Adjunct Senior Lecturer at Monash University. Peter's doctoral research is on the spine and neural system.
