

Diagnosis, Management and Treatment of Temporomandibular Joint Dysfunction

Multi-Disciplinary Perspectives Bringing Together the TMD Communities

Canadian Chapter of the
American **A**cademy of
Craniofacial **P**ain,
*First Annual
International
Symposium*

October 12 & 13, 2007

Program Outline

October 12 & 13, 2007

FRIDAY:

- 7:30 -8:15 Registration & Continental Breakfast
- 8:15-8:30 Welcome to Meeting - Dr. Dennis Marangos & Dr. Richard Goodfellow
DDS, DABCP, President DDS, FACCP, Program Chair
- 8:30-10:00 Dr. Barry Sessle
Canadian Section AACP
- 10:00-10:30 **BREAK**
- 10:30-12:00 Dr. Clifton Simmons
- 12:00-1:00 **LUNCH**
- 1:00-2:30 Dr. Grace Petrikowski
- 2:30- 3:00 **BREAK**
- 3:00-5:00 Dr. Steven Olmos

Friday Night Cocktail Party CN Tower, 6:30-8:30

SATURDAY:

- 8:30-10:00 Dr. Chris Stevens
- 10:00-10:30 **BREAK**
- 10:30-12:00 Dr. Chris Stevens
- 12:00-1:00 **LUNCH**
- 1:00-2:00 Dr. Jamison Spencer
- 2:00-2:30 **BREAK**
- 2:30-4:30 Dr. Barry Glassman
- 4:45-5:30 Panel Discussion

This program is eligible for 12 credit points for Ontario Dentists who attend.

Location **Intercontinental, Toronto Centre**

225 Front St. West, Toronto, ON M5V 2X3 (416) 597-1400

Reservations - 1-800-422-7969

Rooms available on a first come, first serve basis

Register By Phone: **1-866-833-1033** or By Fax: **1-905-438-1765**

Register By Mail: AACP, Canadian Chapter
c/o Orthodont Ltd.
311 Viola Street
Oshawa, ON L1H 3A7

\$695.00 + GST - AACP member

\$795.00 + GST - Non-AACP member

Early registration before June 1st – save \$100.00

\$149.00 + GST - Staff accompanied by dentist

Space is limited register early!

Payment by VISA, M/C or cheque, payable to American Academy of Craniofacial Pain, Canadian Chapter

Dr. Barry J. Sessle D.D.S., Ph.D.

**NEURAL MECHANISMS UNDERLYING TM JOINT AND JAW MUSCLE PAIN
AND THEIR CLINICAL CORRELATES**

Dr. Barry Sessle is Professor of Dentistry, Faculty of Dentistry, and Professor, Department of Physiology, Faculty of Medicine, University of Toronto. His clinical and basic science research interests include neurophysiology and neuroanatomy of the trigeminal system; neural mechanisms and clinical correlates of sensory dysfunction and chronic orofacial pain and its control: electromyographic and neurophysiologic aspects of orofacial motor function and their clinical implications in mastication, swallowing, and related reflex activities: neural mechanisms influencing respiration and upper alimentary and respiratory tract reflexes; age-related changes in the above sensory and motor mechanism and their clinical manifestations.

Dr. Sessle has served on numerous academic committees and professional societies. Dr. Sessle was the Dean, Faculty of Dentistry, University of Toronto from 1990-2001.

Dr. H. Clifton Simmons III D.D.S.

**GUIDELINES FOR ANTERIOR REPOSITIONING APPLIANCE THERAPY FOR THE MANAGEMENT OF
CRANIOFACIAL PAIN AND TMD**

Dr. Simmons is a graduate of Tennessee College of Dentistry, 1977. His faculty appointments include assistant Clinical Professor, Vanderbilt University Medical School, Department of Dentistry, Graduate Orthodontic Residency Program, 1993 to present. Dr. Simmons is a Diplomate of the American Board of Craniofacial Pain, Diplomate of the American Board of Orofacial Pain, Diplomate of the American Academy of Pain Management and is a recipient of numerous other awards and distinctions. He has authored numerous articles on MRI and the recapturing of discs using appliance therapy. Dr. Simmons has also served on numerous professional boards and societies.

DR. GRACE PETRIKOWSKI D.D.S., B.Sc., MRCD(C), FRCD(C)

UPDATE IN TMJ DIAGNOSTIC IMAGING

Advances in imaging technology have allowed clinicians to obtain maximum diagnostic information with a reduction in radiation dose to the patient. This session will focus on decision making and imaging strategies for patients with temporomandibular joint dysfunction and give the clinician an overview of diagnostic information that may be obtained with different imaging techniques.

Dr. Petrikowski is an oral and maxillofacial radiologist. She received her DDS from the University of Alberta in 1985 and her Diploma in Oral Radiology from the University of Toronto in 1988. She is an Associate Professor at the Faculty of Dentistry, University of Toronto and maintains a full-time private oral radiology practice and consultation service in Toronto. She has extensive experience in TMJ radiology and has authored research articles and book chapters on the subject.

Dr. Steve Olmos D.D.S.

COMPREHENSIVE TMJ EVALUATION AND TREATMENT

Dr. Steve Olmos has been in private practice for over 24 years with the last 18 years devoted to the treatment of TMD, Orofacial Pain and Sleep Disordered Breathing. Dr. Olmos is a graduate from the University of Southern California in 1981. He is a Diplomate of the American Board of Craniofacial Pain and the American Academy of Pain Management, and holds Fellowships in the American Academy of Craniofacial Pain, American Academy of Orofacial Pain and the International College of Cranio-Mandibular Orthopedics. He has been honored for his contributions to dentistry with Fellowship in the Academy of Dentistry International. Dr. Olmos is certified by the Academy of Clinical Sleep Disorders Dentistry and is a member of the Academy of Dental Sleep Medicine.

Dr. Chris Stevens D.D.S.

USING BIOMETRICS TO ASSESS PATIENT READINESS FOR FULL-MOUTH RESTORATION

Full-mouth restoration is a process requiring attention to detail from preoperative impressions to cementation and bonding to final occlusal adjustment. However, in our enthusiasm to provide this high level care, we can overlook the physiological readiness of the patient to receive our care successfully. Dr. Stevens will discuss means to assess the physiological readiness of patients and then demonstrate those means in various full-mouth cases. He will take you through the initial diagnostic exam, splint therapy and neuromuscular bite registration to illustrate how he uses multiple biometrics to avoid common pitfalls in restorative therapy.

Dr. Stevens is an international speaker on the subjects of smile enhancement, principles of occlusion, full-mouth restoration and diagnosis and treatment of TM Joint disorders. He is an active lecturer and has spoken to thousands of care providers including dentists, physicians, chiropractors and physical therapists across the country and abroad.

Dr. Stevens became a founding member of the Dr. Dick Barnes Group in 2002. This group gives doctors and their staffs the opportunity to revitalize their practices by taking courses in occlusion, cosmetic dentistry and practice management.

Dr. Jamison R. Spencer D.D.S.

DEALING WITH THE TMD EMERGENCY

Dr. Jamison Spencer is a general dentist in Boise, Idaho with a practice limited to the treatment of craniofacial pain, TMJ disorders and oral appliance therapy for the treatment of sleep disordered breathing. He is a Fellow of the American Academy of Craniofacial Pain, serves on their Board of Directors, and is a Diplomate of the American Board of Craniofacial Pain. He is currently completing a three year post-doctoral residency at the Tufts University School of Dental Medicine Craniofacial Pain Center. He is an adjunct faculty member at Boise State University and teaches Head and Neck Anatomy.

Dr. Barry Glassman D.M.D.

THE EFFECT OF PARAFUNCTION ON HEADACHES AND CRANIOFACIAL PAIN

Dr. Glassman maintains a private practice in Allentown, PA, which is limited to chronic pain management, temporomandibular joint dysfunction and dental sleep medicine. He is a Diplomate of the American Board of Craniofacial Pain, a Fellow of the International College of Craniomandibular Orthopedics, a Fellow of the Academy of Dentistry International, and a Diplomate of the American Academy of Pain Management. He is on staff at the Lehigh Valley Hospital where he serves as a resident instructor of Craniofacial Pain and Dysfunction and Dental Sleep Medicine. He is a Diplomate of the American Academy of Dental Sleep Medicine. He has authored several articles on biometrics in dentistry, pain management and sleep disorders.
