

AACP

Sleep Medicine and Dentistry Mini-Residency Class 10 | 2018-2019

Lectures, Hands-on Workshops, Case Reviews
Approximately 48 CE Credits for the 3 Sessions
Enrollment Strictly Limited to 24 Students—*Act Now!*

Session 1: November 30 – December 1, 2018
Session 2: January 11–12, 2019
Session 3: February 22 – 23, 2019

Learn from the Experts at AACCP!

Gain the knowledge and clinical skills required to assess and differentially diagnose commonly encountered Temporomandibular Disorders seen

in a dental practice that may impact the successful management of a patient with Sleep Disordered Breathing. In addition you will gain advanced medical and dental training to successfully treat patients with these disorders. Simultaneously you will make progress toward fulfilling AACCP Fellowship and AGD Mastership requirements.

Sleep Medicine and Dentistry Mini-Residency Class 10 | 2018-2019

Dear Colleagues,

As the Academy's new Educational Director, I am pleased to formally announce our **Mini-Residency Program in Sleep Medicine and Dentistry**.

In coordinating this Flagship Program with **Drs. Terry Bennett** and **Mayoor Patel**, we offer an expert Faculty Panel of distinguished speakers in presenting the requisite subject matter to provide registrants with the kind of comprehensive clinical and educational experience the Academy stands for.

In so doing, the Attendee will learn from a multitude of medical and dental perspectives in evaluating and treating those unfortunate patients who suffer from sleep disordered breathing.

Given the Public Health ramifications of sleep disordered breathing, it is no wonder that continuing medical/dental education in the field is in such high demand. We at the American Academy of Craniofacial Pain feel strongly that our Mini Residency Program fulfills this demand in what is a truly superior learning experience.

Together with their assembled panel of experts, Drs. Bennett and Patel will bring tried-and-true precepts of oral appliance therapy, and meld them with additional, current science-based diagnostic and treatment paradigms which will prove to be both a very engaging and valuable learning experience, while also serving as the backbone of a vetted protocol which will benefit the patients you treat.

Every aspect of this Program has been developed in careful consideration of the white paper published by the AACP entitled, *"Special Considerations Regarding the Assessment and Management of Patients Being Treated with Mandibular Advancement Oral Appliance Therapy for Snoring and Obstructive Sleep Apnea"*. In so doing, the Academy is helping to ensure that those seeking to help patients suffering from sleep disordered breathing receive the requisite education and training to be competent in the evaluation, diagnosis and treatment of same.

In furtherance of this Mission, the AACP has assembled the "best and brightest" in the field of both medicine and dentistry. We invite you to join us for what we are sure you'll agree is an exceptional learning experience! But please act **quickly!** Course enrollment is strictly limited to twenty (20) registrants, in order to assure optimal attendee-faculty interaction. Simply put, if you are considering adding the treatment of patients suffering from sleep disordered breathing as a component of your practice, then THIS is the course you've been waiting for!

Warmest Regards,

Dr. John D. Petkanas
DAAPM, DABFD, FACFE, FAACP

Educational Director,
American Academy of Craniofacial Pain

Continuing Education Credits

Approximately **48 CE credits** are available to participants in this 3-session Sleep Medicine and Dentistry Mini-Residency.

AACP is an ADA CERP-Recognized Provider.

ADA CERP® | Continuing Education Recognition Program

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.

AGD is an approved PACE Program Provider (#211843) FAGD/MAGD Credit June 1, 2011 to May 31, 2019

Distinguished Faculty

Terry R. Bennett, DMD

AACP Past-President

- *Diplomate:* American Board of Craniofacial Pain
- American Board of Dental Sleep Medicine
- Academy of Pain Medicine
- American Board of Craniofacial Dental Sleep Medicine
- *Fellow:* AACP

Mayoor Patel, DDS, MS

- American Board of Craniofacial Dental Sleep Medicine
- *Fellow:* AACP, AAOP, ICCMO, AGD

—*And a Cadre of Several other Acclaimed Dental Sleep Medicine Experts!*

Program Benefits

Enrollment is strictly limited to 20 participants to ensure quality instruction.

This exceptional learning experience incorporates training from both dentist and physicians who are leaders in the field.

This program examines this complex discipline from both a medical and dental perspective incorporating important principles of diagnosis and treatment.

You will leave the program understanding the importance of recognizing TMD prior to initiating treatment and what to do if issues develop after treatment is initiated.

Teaching/Learning Methodologies

Lecture and participation is included with emphasis on clinically relevant knowledge and developing clinical skills.

Training by both dentists and physicians increased the scope of understanding while fostering the importance of a team approach to insure the highest level of patient care.

Program Highlights

- Physiology of Normal & Abnormal Sleep
- Classification of sleep disorders
- Sleep Bruxism, TMD-orofacial pain and sleep breathing interactions
- Muscular problems, Internal Derangements
- TMJ Exam, Upper airway evaluation
- Dentistry role in sleep medicine and identifying patients within your practice
- Impression/Bite
- Head and neck anatomy review
- Understanding oral appliance therapy
- Intro to medical billing
- Performing a examination and taking a bite (hands on)
- Understanding the TMJ and it's interrelationship with SDB
- Treatment options for OSA
- Process of appliance delivery & Titration of OA
- Understanding treatment failures

- Managing side effects of OAT
- Marketing you sleep practice/
Building relationships
- Understanding the role of the Nasal passage, CT of nasal and airway, sinus and GERD in OSA
- Question and Answer on cases treated in your office
- Fitting of appliance (hands on)
- CBT and its role in managing sleep apnea
- How to determine success
- Dual or Hybrid Therapy
- TMJ splint therapy
- Sleep apnea in children
- Long term follow up care
- Case studies
- Understanding Impression and materials
- Review of TMJ, Managing side effects
- Role of dental team in a dental sleep medicine practice
- Adjunct therapy for pain management
- Practice management

Sleep Medicine and Dentistry Mini-Residency Testimonials

"Best speakers on top of there game from a variety of specialties, I encourage people to please look at attending this course."

Julia Worrall, RN | Canada

"Worth the trip, very comprehensive, would definitely do it again, easy to follow, practical"

Dr. Sam Talpis | Australia

"Quality of content, world class nature of the speakers, highly recommend for anyone interested in dental sleep medicine for the knowledge, the tips and shared experiences from those involved."

Dr. Yule Chen | Canada

"Course has been very intensive and informative, all the presenters are very knowledgeable, very affective, very approachable, very well organized and I have been very satisfied and very happy with what I have gained in terms of continuing my journey and improving my skills and knowledge about dental sleep medicine."

Dr. Donny Mandrawa | Australia

Vision:

The American Academy of Craniofacial Pain will continue to be the organization promoting advancement of knowledge in Craniofacial Pain, Temporomandibular Disorders, and Dental Sleep Medicine by providing a common ground for clinical practice and research to professionals for the benefit of the public.

Mission:

The American Academy of Craniofacial Pain is committed to the relief of craniofacial pain, temporomandibular disorders and dental sleep related disorders and supporting the advancement of education, research and dissemination of knowledge and skills in these areas.

"Leading the TMD and Dental Sleep Community" is more than a slogan. It is our guiding rule! To ensure that our members are heard, since 1985 the AACFP has been actively involved with:

Research organizations, such as the **National Institutes of Health (NIH)** and the **National Institute of Dental & Craniofacial Research (NIDCR)**. Professional and political organizations, including the **American Dental Association (ADA)**, state and local dental associations, licensing boards and the **Food & Drug Administration (FDA)**. Ongoing clinical research that elevates professional standards of diagnostic testing, treatment protocols and outcome effectiveness.

Sleep Medicine and Dentistry Mini-Residency Class 10 | 2018-2019

Accommodations

All Educational Program Sessions for Class 10 will be held at the **Sheraton DFW Airport Hotel**, where guest rooms are also being held for our Sleep Medicine and Dentistry Mini-Residency Registrants.

Our host hotel for all three sessions of Class 10 is the Sheraton DFW Airport Hotel in Dallas/Ft. Worth, Texas. Your educational visits couldn't be any more convenient!

The hotel is just a short **FREE shuttle ride** from the airport's main terminal. For each of our three weekend sessions, your room charge for Friday and Saturday is **\$195**, which includes breakfast, lunch, dinner and day-long refreshments in our meeting rooms. Also included in your room charge is free guest room WiFi and full access to the hotel's fitness center.

Class 10 registrants can secure their guest room reservations by calling the Sheraton DFW Airport Hotel at 972-815-0213. *Be sure to mention that you are participating in the AACP Sleep Mini-Residency.*

The Sheraton DFW Airport Hotel is located at:
4440 W. John Carpenter Freeway, Irving, Texas 75063
Check them out on the web: <https://bit.ly/2xFTjtl>

If you'd like to reserve **additional nights** at the hotel, the room rate would be just **\$99**, since no meals would be included on those days.

Please make your reservations early! Our room blocks will expire about three weeks before each session begins.
