23rd Annual International Clinical Symposium
TREATING
TEMPOROMANDIBULAR JOINT INTERNAL DERANGEMENTS
INTERNAL DERANGEMENTS

The American Academy of Craniofacial Pain (AACP) is proud to sponsor this in-depth symposium, which is designed to provide dentists and their staffs with clinically-relevant information they can put to immediate use when treating patients who suffer from internal derangements of the TMJ.

Internal derangements of the TMJ are frequently a significant factor in the etiology of painful dysfunction of the jaw and associated clinical symptoms. Effective clinical management is exceedingly important because of the potential for progression to advanced degenerative states.

Photos courtesy Ft. Worth Convention & Visitors Bureau
REGISTRATION

The AACP is now accepting registrations by mail at 516 W. Pipeline Rd., Hurst, TX 76053, by phone at 800/322-8651 or 817/282-1501, by fax at 817/282-8012, or online at www.aacfp.org.

*Note: Bring your cowboy hats and boots! Admission to Friday evening’s Country-Western Buffet Dinner & Dance is free for all registered attendees, doctors and staff!*

**Not an AACP member?** Tuition savings is one of many benefits of being an AACP member. To qualify, simply submit a completed AACP membership application (with processing fee) with your symposium registration. To request a membership application, call AACP at 800/322-8651 or 817/282-1501.

**HOTEL ACCOMMODATIONS**

Renaissance Worthington Hotel
800/433-5677 • AACP Rate: $179.00 (single or double occupancy plus tax)
Available until all rooms in our block are sold or Monday, July 2, 2007.

**AIR TRAVEL**

Through special arrangement with the AACP, American Airlines is offering discounts off its published airfares to AACP Symposium attendees. For pricing, assistance with reservations and ticket purchases, contact the American Airlines Service Desk at 800/433-1790. Be sure to mention code A9817SS.

**SPANISH-LANGUAGE TRANSLATION**

Our main scientific session will be presented in English, and translated simultaneously into Spanish, as a courtesy to AACP Latin American Section members plus Spanish-speaking dentists from the U.S. and other countries as attendance warrants.

**POSTER PRESENTATIONS**

All registered attendees are invited to provide a poster presentation, which may include abstracts. **To register, contact: Patrick E. Barrett, DDS, Ph: 360/779-7711. Fax: 360/779-7732. E-mail: tmdclinic@aol.com.**
**Registration Deadline: Monday, June 25, 2007**

**AACP FELLOWSHIP EXAM**

Open to members only, the AACP Fellowship Exam will be held during this symposium at the Renaissance Worthington Hotel in Fort Worth, TX.
- Written Portion: July 26, 2007, at 9:00 am
- Oral Portion: by appointment
For a registration packet and Fellowship Exam Study Guide, call AACP at 800/322-8651 or 817/282-1501 or send e-mail to central@aacfp.org.

**Exam Fee: $900.00**

**Registration Deadline: Monday, June 25, 2007**
(includes submission of all paperwork, credentials and exam fee)

**EXHIBITS**

Educational, informational and commercial exhibits will be available for viewing during this Symposium, and representatives will be on hand to answer questions.

AACP Member | Non-Member
--- | ---
Main Scientific Session | $675.00 | $825.00
Fundamentals of TMD Diagnosis and Treatment: Back to Basics (Part 1) | $675.00 | $825.00
Certified TMJ Assistant (Part 1) | $320.00 | $470.00
Advanced Assistants | $320.00 | $470.00

Founded in 1985, the AACP is the largest professional organization exclusively devoted to those interested in the assessment, diagnosis and management of patients who suffer from craniofacial pain, temporomandibular disorders, and sleep disorders in dentistry. The goals of the AACP are: to elevate and enhance the professional standards of diagnosis and treatment in the field of Craniofacial Pain and TMD; to encourage research and further study; to recognize for the benefit of the public those professionals who have specialized knowledge and skills in diagnosis and treatment; to promote and improve professional levels of competency; and to encourage the highest standards of excellence for practitioners.

**Registration & Lite Continental Breakfast**

(or AACP New Member Breakfast, by invitation)

**Opening Ceremonies**

---

**Ronald C. Auvenshine, DDS, PhD**

**Proprioceptive Control Mechanism of Jaw Function**

One of the most complex activities of the Central Nervous System (CNS) is coordinating function of the stomatognathic system. Control of rhythmic jaw movement is dependant upon sensory feedback via the reflex arc created through proprioception of the teeth, muscles and TMJ complex.

Upon conclusion, attendees should have a greater understanding of:

1) the proprioception pathway from the oral cavity to the CNS, 2) the role of sensory feedback via the reflex arc in modulation of muscle activity, and 3) the importance of occlusion in the health of the stomatognathic system.

---

**Prof. Mariano Rocabado, DPT**

**Craniofacial Pain of Cervical Origin: A Craniovertebral Centric Relation Approach**

The relationship between the craniomandibular, cervical and hyoid regions can be modified by orthopedic appliances installed by dentists and by manual orthopedic techniques applied to the cervical spine by physical therapists. Prof. Rocabado will present an objective method for determining the impact of both disciplines.

Upon conclusion, attendees should:

1) increase their skill in evaluating craniomandibular and craniovertebral dysfunctions, 2) understand basic principles of mechanical entrapment neuropathies and craniofacial pain of cervical and myoaponeurotic origin, and 3) more readily identify patients in need of referrals to physical therapists specializing in orthopedic manual therapy.

---

**Edwin A. Ernest, III, DMD**

**Diagnosing & Managing the Complex Pain Patient**

Dr. Ernest’s goal in this presentation is to expand the dentist’s ability to evaluate and establish a differential diagnosis for the complex pain patient. This includes recognizing one’s limits in treating the difficult patient plus when and why to stop treatment or management.

Upon conclusion, attendees should be able to:

1) discern between diffuse and focal injuries, 2) recognize the secondary gain patient, and 3) make effective referrals.

---

**Ralph Garcia, Jr., DDS**

**Conservative Treatment of TMJ Internal Derangements: Repositioning the Mandible -- Where to Put It & Why**

Dr. Garcia will discuss the objectives regarding splint therapy and the guidelines for determining the treatment position of the mandible. He will also discuss construction and adjustments of the daytime splint and nighttime appliance, and the rationale for their use.

Upon completion, attendees should know:

1) how to determine the therapeutic position for the mandible in patients with internal derangements, 2) how to register the bites for daytime splint and nighttime appliance, and 3) how to adjust both appliances.

---

**Haden-Stack Award Presentation & Graduation Ceremonies**

---

**President’s Reception & Country-Western Buffet Dinner & Dance**
Registration & Lite Continental Breakfast

DAVID B. MILLER, DDS/Internal Derangements: A Neuromuscular Approach

Neuromuscular Dentistry is defined as treatment augmented by the use of computerized bioelectric instrumentation, such as TENS, EMG and Jaw Tracking. The treatment baseline is Physiologic Rest Position rather than tooth-to-tooth contacts, and the goal of all treatment is to optimize physiologic processes of the body and harmonize the body to a healthy muscle and joint-driven occlusion.

Upon conclusion, attendees should: 1) understand how instrumentation is used in treating internal derangements, 2) know when in the treatment cycle instrumentation is used, and 3) appreciate how using instrumentation can optimize success.

JAMISON R. SPENCER, DMD/Unlocking the Non-Reducing Disc

Dr. Spencer will discuss proper evaluation and diagnosis of a non-reducing disc displacement, including a step-by-step approach to treatment of the acute non-reducing disc.

Upon conclusion, attendees should be able to: 1) rapidly evaluate a patient with possible internal derangement, 2) develop a differential diagnosis, 3) make a referral for MRI, and 4) perform an “unlocking procedure.”

Break

H. CLIFTON SIMMONS III, DDS/Anterior Repositioning Appliance (ARA) Therapy in the Treatment of TMJ Internal Derangements

ARA Therapy will be reviewed, from splint construction to case finishing. An evidence-based method of treating the complex chronic TMJ patient with internal derangements will be presented, with studies to show the most effective method of achieving disc recapture. Techniques for long-term disc recapture and retention, the degree of relief for each symptom, plus condyle regeneration will be shown.

Upon conclusion, attendees should: 1) know where to place the bite on an anterior repositioning appliance, 2) recognize and achieve maximum medical improvement on a TMJ disc displacement patient, 3) know what finishing techniques are available for ARA therapy, and 4) be familiar with ARA therapy research.

AACF Membership Meeting & Luncheon

EDWARD F. WRIGHT, DDS, MS/Integrating Multidisciplinary TMD Therapies

The role of stabilization appliances in the treatment of TMJ disc displacements, plus alternative appliance materials, will be discussed. A recommended protocol for integrating appliance, pharmaceutical and multidisciplinary TMD therapies will be provided, which will then be applied to cases of patients with TMJ disc displacements.

Upon conclusion, attendees should be able to: 1) consider other appliance materials they may desire to use in their practices, 2) better identify when physical therapy and/or a psychological referral may be desired, and 3) better understand an integrated approach for appliance, pharmaceutical, and multidisciplinary TMD therapies.

Break

NOSHIR R. MEHTA, DMD, MDS, MS/Interrelationships of TMJ Joint Internal Derangements with Head, Face & Neck Pain

There is emerging evidence that head and neck injuries play an important role in development and maintenance of TM joint internal derangement pain. Treatment of condylar position, while helping with the joint, may adversely affect symptoms of the head and neck.

Upon conclusion, attendees should know: 1) how to examine and identify primary and secondary sources of pain in the TM joints, and 2) how to use appliances to create a more physiologic maxillo mandibular reorientation for the treatment of cervical and TM joint problems.

Panel Discussion

Adjourn
OBJECTIVE

The first part of a two-part program, this course introduces fundamental principles of diagnosis and treatment of TMD and Craniofacial Pain to novice TMD clinicians. It is also ideal preparation for dentists who wish to enroll in the AACP Institute’s “Craniofacial Pain Mini-Residency” program.

Earn an AACP Certificate!

To earn a certificate of course completion from the AACP, doctors must attend Part 1 and Part 2 of this program, and earn a passing grade on the final exam.

Part 2 will be held in the Dallas/Fort Worth area in the Fall of 2007. Registration materials will be sent automatically to doctors who successfully complete Part 1.

Friday, July 27, 2007

7:00 am – 8:00 am  Registration & Lite Continental Breakfast (or AACP New Member Breakfast, by invitation)
8:00 am – 8:30 am  Opening Ceremonies
8:30 am – 10:00 am  CHARLES R. HOLT, DDS/Anatomy, Neurology & Pathology
Dr. Charles Holt will discuss basic principles of anatomy, neurology and pathology. He is a Diplomate of the American Board of Craniofacial Pain, and a Director and founding member of the AACP.
10:00 am – 10:30 am  Break
10:30 am – 11:30 am  Anatomy, Neurology & Pathology (continued)
11:30 am – 12:00 pm  CHARLES R. HOLT, DDS/Patient Examination & Principles of Diagnosis
A step-by-step protocol for a clinical evaluation to obtain an accurate diagnosis will be presented and reviewed in detail.
12:00 pm – 1:30 pm  Lunch (on your own)
1:30 pm – 2:00 pm  Patient Examination & Principles of Diagnosis (continued)
2:00 pm – 3:00 pm  ROSE NIERMAN, RDH/Insurance Principles of a TMD Practice
Insurance reimbursement may be through medical or dental insurance. Information will be provided to assist doctors and their patients in maximizing reimbursement. President of Nierman Practice Management, Ms. Nierman has 20+ years of experience in the clinical setting.
3:00 pm – 3:30 pm  Break
3:30 pm – 4:00 pm  Insurance Principles of a TMD Practice (continued)
4:00 pm – 5:00 pm  EDWARD P. SPIEGEL, DDS/Legal Aspects of History Taking
Doctors need to be aware of legal issues in the assessment, diagnosis and treatment of TMD patients. Dr. Spiegel will discuss documentation of treatment, including the use of informed consents. He is a Diplomate of the American Board of Craniofacial Pain, and a Director and founding member of the AACP.
5:00 pm – 6:00 pm  Haden-Stack Award Presentation & Graduation Ceremonies
6:00 pm – 7:00 pm  Break
7:00 pm – 10:00 pm  President’s Reception & Country-Western Buffet Dinner & Dance

Increase your practice productivity by adding TMD therapies to your armamentarium!

Gain new, clinically relevant information you can put to immediate use in your practice!

Did you know…  According to the National Institute of Dental and Craniofacial Research of the National Institutes of Health, approximately 10.8 million people in the U.S. suffer from TMD problems at any given time. Women are most often affected; however, men and children can also suffer from TMJ-related pain and dysfunction. The good news… 95+% of all TMD problems can be managed with non-surgical, conservative treatments performed safely and conveniently in the dental office!
Saturday, July 28, 2007

7:00 am – 8:00 am  Registration & Lite Continental Breakfast

8:00 am – 9:30 am  Jack L. Haden, DDS/Principles of Occlusion
Dr. Jack Haden will review functional and abnormal occlusion. In addition to being a highly sought-after lecturer, Dr. Haden is a Diplomate of the American Board of Craniofacial Pain, and a Director and founding member of the AACP.

9:30 am – 10:00 am  Richard W. Greenan/Radiology
Mr. Richard Greenan will discuss the various types of imaging used in the diagnosis of TMD patients. He is an internationally known authority on radiology, President of Imaging Systems, Inc., and the author of *A Practical Atlas of TMJ and Cephalometric Radiology*.

10:00 am – 10:30 am  Break

10:30 am – 12:00 pm  Radiology (continued)

12:00 pm – 1:30 pm  AACP Membership Meeting & Luncheon

1:30 pm – 3:00 pm  Radiology (continued)

3:00 pm – 3:30 pm  Break

3:30 pm – 5:30 pm  Paul M. Clifford, DDS/Pharmacology
Pharmacology principles for patients with a temporomandibular disorder will be reviewed in detail by Dr. Clifford, a long-time member of the AACP and a respected clinician who manages a successful private practice in Albuquerque, New Mexico, that is 100% limited to treating craniofacial pain and TMD patients.

5:30 pm  Adjourn

*Earn a certificate from the AACP by completing Part 1 and Part 2 of this course for doctors new to TMD!*

*Enjoy the satisfaction that comes from learning how to successfully assess, diagnose and treat Craniofacial Pain patients!*

**Join AACP and save!** AACP is the largest professional society in dentistry devoted exclusively to assessment, diagnosis and treatment of patients who suffer from craniofacial pain, temporomandibular joint disorders and sleep disorders. To qualify for AACP-member tuition rates, simply submit a completed membership application (plus processing fee) with your symposium registration form. To request your membership application, contact the AACP Central Office: 516 W. Pipeline Road, Hurst, TX 76053. Phone: 800/322-8651 or 817/282-1501. Fax: 817/282-8012. E-mail: central@aacfp.org.
OBJECTIVE

The first part of a two-part program, the AACP’s Certified TMJ Assistant (Part 1) course is designed to establish a foundation for dental assistants who are tasked with meeting the needs of TMD and Craniofacial Pain patients. Attendees will gain clinically relevant knowledge and skills – all of which are essential for success in a TMD and Craniofacial Pain practice.

PART 2 of this program will be held in the Dallas/Fort Worth area in the Fall of 2007. Registration materials for Part 2 will be sent automatically to qualified assistants who successfully complete Part 1.

Earn Your CTA Certificate!

Qualifications for the CTA certificate include: 2 years’ experience in the medical/dental field, mandatory attendance at all classes in Part 1 and Part 2 of this course, plus a passing grade on the final exam.

LEADING THE TMD COMMUNITY

The AACP held its first CTA course in 1991.

FACULTY

Charles R. Holt, DDS, is a Diplomate of the American Board of Craniofacial Pain, and a founding member and Director of the AACP.

Paul M. Clifford, DDS, has a 100% TMD/Craniofacial Pain practice. He has been an AACP member since 1999.

Sharon Carr is President of TMData Resources and a sought-after speaker, consultant, and author on practice management.

Richard W. Greenan is an international authority on radiology, President of Imaging Systems, Inc., and author of A Practical Atlas of TMJ and Cephalometric Radiology.

Edward P. Spiegel, DDS, is a Diplomate of the American Board of Craniofacial Pain and a founding member and director of the AACP.

Rose Nierman, RDH, President of Nierman Practice Management, has 20+ years of experience in the clinical setting, and in medical and dental insurance.

Certified TMJ Assistant Program (Part 1)

$320.00 employed by AACP member ◆ $470.00 employed by non-member

A SPECIAL NOTE TO ADVANCED ASSISTANTS
FROM DR. CHARLES HOLT

The clinical significance of our speakers at this year’s symposium is such that I am delighted to invite advanced assistants to register to attend our main scientific session (see agenda, above) with the doctors. As a key member of the doctor-assistant team for patient care, this will enable you to receive the newest and most technologically advanced information on the treatment of internal derangements.
CONFERENCE REGISTRATION

Includes admittance to the symposium, syllabus, refreshment breaks each day, our Friday evening Country-Western Buffet Dinner & Dance, plus any additional social events for symposium registrants.

WAYS TO REGISTER

BY MAIL: Send completed form with payment (check/credit card) to AACP, 516 W. Pipeline Road, Hurst, TX 76053.

BY FAX: Fax completed form (credit card payment only) to AACP at 817/282-8012.

ONLINE: Please visit AACP online at www.aacfp.org. Under EVENTS CALENDAR, look for the link to the AACP 23rd Annual International Clinical Symposium. There, you will find step-by-step instructions for registering online.

BY PHONE: Call AACP at 817/282-1501 or 800/322-8651. Please have your VISA or MasterCard handy when calling.

ACCEPTABLE FORMS OF PAYMENT

CHECKS are acceptable when registration is submitted by mail or completed on-site at the symposium. Checks must be payable to AACP, in US dollars and drawn on a US bank.

CREDIT CARDS may be used for registrations that are mailed, faxed, phoned in, or completed online or on-site at the symposium. AACP accepts VISA and MasterCard only. AACP reserves the right to charge the correct tuition amount if different from your calculated total.

REFUND POLICIES

■ Registration refunds (less 10%) must be requested at least 14 days prior to symposium start date.

■ Reservations at the Renaissance Worthington Hotel may be cancelled without penalty before 4:00 pm on the day of arrival.

NOT AN ACCP MEMBER?

Tuition savings is one of many benefits of being an AACP member. If you are not an AACP member, and you submit a completed membership application (with processing fee) along with your symposium registration, you will receive the AACP member registration rate. To request an AACP membership application, please call us at 800/322-8651 or 817/282-1501 or send e-mail to central@aacfp.org.

GUEST ROOM RESERVATIONS

Renaissance Worthington Hotel • 800/433-5677

The special “AACP Rate” at the Renaissance Worthington Hotel is $179.00 (single or double occupancy plus tax). It is available on a first-come, first-served basis until all rooms in our block are sold or until July 2, 2007 – whichever happens first. Reservations may be made by calling the hotel at 800/433-5677. Should the AACP room block be filled prior to July 2nd, the AACP Central Office will be happy to supply a list of nearby hotels.

COUNTRY-WESTERN BUFFET DINNER & DANCE

Free admission for all registered attendees, doctors and staff!

Don your cowboy hats and cowboy boots, and join AACP for dinner and dancing on Friday night, July 27th, from 7:00 pm – 10:00 pm! Admission is free to all registered doctors and registered staff. Spouses and guests: $50.00 each. Don’t miss the fun, fellowship and camaraderie…Texas-style!

PARKING

Parking is available for all AACP Symposium registered guests and local attendees at the Renaissance Worthington Hotel garage. Self-parking is available for approximately $12.00 daily and valet parking is available for approximately $16.00 daily, inclusive of in-and-out privileges.

VIDEO RECORDINGS

DVD or VHS recordings of the lectures presented at the AACP 23rd Annual International Clinical Symposium will be available for purchase. Order forms will be distributed at the symposium and may be requested from the AACP Central Office. Approximate cost is $59.95 per DVD and $49.95 per VHS tape. Recordings are intended for individual use only; resale and/or any other uses are prohibited.

ADDITIONAL INFORMATION OR ASSISTANCE

The AACP Central Office staff is happy to assist you with any questions or concerns you may have. Please do not hesitate to contact us by phone at 817/282-1501 or 800/322-8651, by fax at 817/282-8012, or by e-mail at central@aacfp.org.
