TMD FOR THE SLEEP DENTIST

Class 2
September 13–14, 2013
Lectures
Hands-On Workshops

“Dental Sleep Medicine is simple if you understand TMJ Disorders”
Jamison R. Spencer
D.M.D., M.S.
Dear Colleague:

I would like to offer you the opportunity to improve your level of care for your Sleep Patients. Join us for the AACP Institute program: TMD For The Sleep Dentist. This unique two-day program offers you the opportunity to gain a firm understanding of the area of TMD and how it affects the treatment of your Sleep patients.

There is nothing more frustrating than to undertake the treatment of an apparently routine Sleep patient only to have them develop pain and/or dysfunction of the gnathostomatic system where prior to treatment they were asymptomatic. What should have been a straightforward uncomplicated course of treatment now develops into a concerned and unhappy patient with jaw pain, TMJ dysfunction and headaches. This two-day program will give you a firm understanding of the anatomy of the head and neck that is associated with TMD and Sleep. And, in addition, will provide you with an understanding of the various pathology entities that may be present prior to treatment, unrecognized, or develop during the course of treatment. Additionally you will be taught how to do a thorough examination of your patient for TMD and straightforward treatment concepts to address these problems.

The American Academy of Craniofacial Pain is a world leader in the education of health care professionals in the diagnosis and treatment of Craniofacial Pain, TMD and Sleep. I urge you to evaluate this brochure and join us for this exceptional two-day learning experience.

Whether you are new to Sleep Dentistry or a seasoned clinician, you will find the information in this program unparalleled. Let us help you elevate and improve your level of care for your Sleep patients. I am confident you will find the experience an exceptional learning experience.

Gerald J. Murphy, B.S., D.D.S.
Director AACP Institute
Objectives

Upon Completion of the Program Participants Should:

— Have a detailed understanding of the anatomy of the head and neck that is pertinent to TMD and Sleep

— Recognize the TM Disorders that may present prior to sleep treatment or arise during the course of treatment

— Understand what patients are candidates for Sleep Treatment and what patients require TMD Treatment prior to initiating care

— Understand how altering mandibular position has far greater implications than just the airway

By the End of this Two-day Program, Participants Should also Have:

Acquired the knowledge and experience to do a thorough examination for TMD, Understand which imaging is necessary to evaluate the Sleep patient for TMD, Understand how to fabricate a TMJ appliance, acquired a grasp of basic treatment Techniques for TMD and understand which patients should be referred for TMD treatment if the clinician does not feel qualified.

</thead>
<tbody>
<tr>
<td><strong>Rate</strong></td>
</tr>
<tr>
<td>(plus applicable tax and fees)</td>
</tr>
</tbody>
</table>

Overnight package includes:
- Round-trip shuttle service from DFW International to the AA TCC

**Day Package Rate | **$92** **(plus applicable tax and fees—per person/per day—without guest room)**

Day package includes:
- All day snacks and beverages
- Buffet lunch, complimentary WiFi
- Complimentary self-parking and unlimited facility usage
- (swimming pool, complete fitness center, tennis, volleyball, basketball facilities and game room).

The “day rate” is applicable to participants in the **TMD for the Sleep Dentist** program who do not require overnight accommodations.

**Check-in, Check-out Policies**

Guest accommodations will be available at 3:00 pm on arrival day and reserved until 11:00 AM on departure day. American Airlines Training & Conference Center would appreciate receiving flight arrival times, if available. Any participant wishing special consideration for late checkout should inquire at the front desk on the day of departure.

**Guest-Room Charges**

TMD for the Sleep Dentist program participants will pay their own account upon departure. When reservations are made, a deposit equal to the package or room rate and tax for the night will be required.

An individual’s deposit is refundable to the individual if the American Airlines Training & Conference Center receives notice of an individual’s cancellation at least 24 hours prior to scheduled arrival. Upon check-in, each guest will be required to present a valid credit card, on which an amount of sufficient pre-authorization can be obtained to cover the package or room rate, tax charges, and guest fees for the length of the guest’s stay plus the anticipated use of the American Airlines Training & Conference Center’s ancillary services. Each guest’s home/business address and e-mail address will also be required.

**Transportation**

Complimentary shuttle transportation is available to and from the American Airlines Training & Conference Center and Dallas/Fort Worth International Airport. Complete instructions for calling from the airport will be sent to **TMD for the Sleep Dentist** attendees. If you take a taxi, be sure to tell the driver you wish to go to the American Airlines Training & Conference Center (at Highway 360 and 183) in Fort Worth. If you request “American Airlines Center,” you may find yourself in Dallas at a sporting event or concert.
